

Region XII Advisory No. 136, s. 2021

In compliance with the letter of Department of Science and Technology Food and Nutrition Research Institute, this advisory is issued for the information of DepEd officials, personnel/staff, as well as the concerned public.

September 20, 2021

MONITORING THE REACH OF THE DOST-FNRI FOOD TECHNOLOGIES

The Department of Science and Technology's Food and Nutrition Research Institute (DOST-FNRI) aims to provide optimum nutrition for all Filipinos. The Institute's food technologies are mostly focused in addressing malnutrition among pregnant and lactating women, infants and young children, and school-age children.

One of these food technologies is the Enhanced Nutribun (squash and carrot variants) which the Department of Education included, together with other DOST-FNRI's developed food technologies, in the School-Based Feeding Program.

Relative to the this, the Department of Science and Technology Food and Nutrition Research Institute (DOST FNRI) is requesting for assistance in monitoring the reach of the DOST FNRI food technologies by providing the number and areas of program beneficiaries of the Enhanced Nutribun and other nutritious food products made from the DOST-FNRI technologies for 2021 using the monitoring sheet template attached.

Should there be queries, you may contact Ms Maja Betzaida S. Decena, Science Research Specialist I, and Mr. Alexis M. Ortiz, Supervising Science Research Specialist of the Technology transfer and Commercialization Section, Technology Diffusion, and S&T Services Division at (02) 8837-8113 local 322/ (02) 8837-2071 Local 2287 or at mbsddost.fnri@gmail.com or amortiz1@yahoo.com .

For the guidance of all concerned.
