INVITATION TO DOST-MIRDC'S TEKNOMETALINO: LIKHANG 3D PILIPINAS

The Department of Science and Technology is honored to share the opportunity to participate in the upcoming National Science and Technology Week from November 25-29, 2026. Through NSTW, we look forward to having more of our youth interested in pursuing the STEM path and becoming professionals in the various fields of STEM.

In line with the NSTW 2026 celebration, schools are invited to participate in the DOST-MIRDC's TeknoMETALino: Likhang 3D Pilipinas, on November 27, 2026, 8:00 am- 4:30 pm, at the Cinema Hallway B, Gaisano Mall, General Santos City. The TeknoMETALino forum intends to promote additive manufacturing to students in a way that will be very interesting for them. It will be an inter-school competition where each school will be composed of three junior high school students (grades 7, 8, and 9) with one faculty coach. The competing schools will be given a problem to work on. Each team will come up with a product that will solve the problem. They will design a product and 3D print it with assistance from a technical mentor. The winners will be announced at the end of the program.

Below is the registration form URL for schools that would like to participate.
